

HV200 Series

- High Quality Vacuum Encapsulation
- High Voltage Output
- Light Weight
- Breakdown 7kV/mm min
- Custom Design
- Typical Pack Size 1000pcs

This particular range of ignition coils are suitable for applications where a high gain in voltage is required in a low cost, yet safe and reliable manner. Applications include gas ignition for boilers, barbecues and ovens, as well as air ionisers and specialist lighting products.
